## Camp Activities

### Science Exploration

Discover all types of science from chemistry to biology. You'll be sure to find that science can be fun to learn through hands on experiments and activities.

### Working the Web

Learn how to create cool and interactive Web sites. Use computer software to create your own Web site and learn how to set-up and participate in blogging.

### Creative Cooking

Learn the basic skills of cooking and easy recipes as you cook and perhaps eat up a storm throughout this activity.

### Master Math

Review your mathematics skills in this basic level math activity. This activity will surely help you sharpen your skills in order to succeed in your next math course!

### Writing Workshop

Enhance your writing skills throughout this workshop. Learn the basics of how to write an excellent composition, whether it be an essay or even a research paper.

### Memories Are Forever

Don't scrap those old pictures; scrapbook them! Learn how to compile all of your most precious memories into an individual scrapbook.

### Elegant Etiquette

Through this activity, you will develop techniques and tips in style, beauty, party planning and etiquette. You will even have a chance to display all that you learn!

### Bejeweled!

Display your love for jewels and gems through the art of jewelry making. Learn techniques to design and produce your very own pieces of jewelry.

### No Machine Sewing

Who needs a sewing machine? In this activity, you will design and create all sorts of fabric crafts such as blankets and scarves. Others may think you are a master of the machine, but don't worry, we won't spill your secret!

### Sports Sampler

Get a sneak peek into various team and individual sports. Learn the basics of several sports to enhance physical skills and team building. This activity will include recreation and competitive sports.
